

Smart Infrastructure 2021

13 - 14 May 2021, HKUST / Webinar

<https://scc.hkust.edu.hk/>

With the theme of "Smart Infrastructure", the conference enables participants to review the utilization of cutting-edge smart applications in the GBA, and how the technologies shape our cities to be more connected and sustainable. It also provides a platform for professions to discuss the possibilities of incorporating the current technologies among the 9+2 cities, fostering the region's synergic development instead of developing smart cities in silos, ultimately connecting the cities as a whole.

SMART IDEAS
